Group Art Unit: 2625
Examiner: Aaron W. Carter

HON. COMMISSIONER OF PATENTS AND TRADEMARKS
WASHINGTON, D.C. 20231

STATEMENT OF ATTORNEY, JOSEPH FUNK

I am the attorney who wrote and was prosecuting the above identified patent application. On August 5, 2004 I filed a response to final office action and a request for continued prosecution. I awaited for a reply but heard nothing until I received a Notice of Abandonment dated April 19, 2005.

In my regular course of business of my office I have my secretary maintain a log of mail and fax documents sent and received as part of office operations. The day that documents are received they are entered into the mail log and the day that documents are sent they are entered into the mail log. A copy of the mail log for 2004 is attached to a separate Statement made by my secretary who maintains the mail log.

The above mentioned response to final office action and request for continued prosecution was made on August 5, 2004 via Express mail and this entry is seen in the log. I have no other records of other documents being received from the patent office concerning this patent application between August and December 2004.

A search by my office secretary of the mail log, the office files of the assignee AssureTec Systems Inc. and the inventors yielded nothing.

My secretary's Statement relates another incident we had this past year of the post office placing a box key belonging to someone else in my business PO box 661 (box of record in the PTO files). Every now and then pieces of mail belonging to other parties have also been mis-delivered to me.

Sincerely,

Joseph E. Funk.

STATEMENT OF OFFICE SECRETARY, GLORIA FUNK

In the regular course of attending to clerical matters in the law office of Joseph Funk I maintain a log of mail and fax documents sent and received as a standard part of office operations. The day that documents are received they are entered into the mail log and the day that documents are sent they are entered into the mail log. A true printout of the log for 2004 is attached to this Statement.

Referencing the above identified patent application and the 2004 log, the applicant filed a request for continued examination on August 5, 2004 via Express mail and several days later I received back the return postcard stamped August 5, 2004. These entries are seen in the log. We have no other records of other documents being received from the patent office between August and December 2004.

Nothing more was heard from the patent office until mid April 2005 when A Notice of Abandonment was received dated April 19, 2005.

I informed Joseph Funk of the Notice of Abandonment. After a search by me of the mail log and the office files of the assignee AssureTec Systems Inc. and the inventors nothing else was found.

We had another incident last year in which wrong mail was placed in Mr. Funk business PO box 661. One day a small card was in the box with a key taped thereto with a note that the key had been found on the floor in the lobby. The problem is that the key was for box 660 - an error. I attach a picture of that card with key which I made.

Sincerely,

Gloria M. Funk.

2004 MAIL LOG

Joseph E. Funk
